

Appendix D

Worksheets

The attached Excel spreadsheet provides four worksheets to assist in the calculations required to determine:

1. The Project Phosphorus Budget (PPB)
2. Pre-treatment and Post-treatment Phosphorus Export (Pre-PPE and Post-PPE) from the project
3. Any Mitigation Credits
4. Net Project Phosphorus Export

The spreadsheets have the calculations built into them and can be used either as active excel spreadsheets or may be printed out as worksheets for use by hand.
